FROM OUR INTERNS

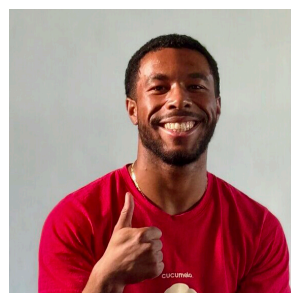

Nyasia | Human Resources and Marketing | Habitat for Humanity | Sydney, Australia

"During my intern abroad experience, I had the invaluable opportunity to intern with Habitat for Humanity Australia for three months, delving into the realms of HR and Marketing. This experience was transformative, offering insights into the operational dynamics of the company and introducing me to innovative program tools utilized by organizations globally. Importantly, I learned that there's no one-size-fits-all approach in Marketing; instead, it requires adaptable strategies tailored to diverse contexts. I also can volunteer and see hands-on what the company I'll be working for actually does."

Amy | Public Relations | IPR London | London, England

"[Attending London Fashion Week] was one of the best experiences I've had during an internship in college, and continues to be a key component on my resume when currently applying for a full-time job. The opportunity to intern for a company that plays a pivotal role in supporting and facilitating events like these is something I wouldn't have the chance to experience if I were still studying in the United States... I am filled with gratitude for this remarkable experience, and I am excited for future opportunities and learning experiences."

William | Documentary Film | Cucumelo | San José, Costa Rica

"I edit a lot of videos. [I also] have the opportunity to go offsite where I'm not in the office and I'll be doing a lot of filming. I get to work behind the camera and get to learn more about the processes and all the gadgets. I also help with the set-up and take-down of all the equipment. Sometimes I'll help with revising scripts... it really depends on the day! Anything that has to do with audio-visual production — I'm pretty much doing all of it."

HOW OUR EMPLOYER PARTNERSHIPS WORK

We are dedicated to both our interns and host employers. For more than 20 years, we have been a trusted partner to thousands of employers worldwide, helping them grow through the recruitment of talented, highly ambitious interns from the world's top universities. Our fees are paid directly by the student, their university, and their financial aid as part of their degree program and professional development, so hosting an intern is at no cost to you. We recruit, screen and present candidates. You review, decide who to interview, and who to bring on board. It's that simple.
